

Ma propre plage Debris Inventory

How to use this data card :

- Record all the items you collect. Tally your items using tick marks (III III) and enter the totals in the appropriate boxes. If there are too many items of one kind (cigarette butts often come in hundreds), estimate the total number of items collected. Don't give a qualitative assessment, such as "a little" or "a lot".
- Use Help Card 4 to recommend ways of solving debris problems at your site.

Cleanup site information

Cleanup site name : _____

Cleanup site location : _____

Name of organizer and organization : _____

Address of organizer : _____

Cleanup date (dd/mm/yyyy) : _____ Distance cleaned : _____ km

General cleanup data

Number of trash bags filled : _____

Number of recycling bags filled : _____

Total estimated weight : _____ kg

Strangest items collected : _____

Entangled animals :

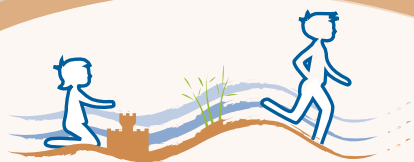

Species	Alive, released, dead	Entangling debris

Possible recommendations :

Install trash cans		Raise awareness about littering in nearby marinas, restaurants and shops	
Install ashtrays
